

# Two Hoots Glamping Snugglewood

*Snugglewood* is our “Special Pod”. It’s the same size as a standard pod - 2.3 x 5.5 metres - but the inside has been rearranged to accommodate a small washroom and toilet, and a kitchen unit with sink and kettle. You’ll appreciate the extras when you find you *have to go* in the middle of the night!

Otherwise, *Snugglewood* is the same as our standard pods: fully-insulated for year-round use, TV/DVD player, electric heater, lights and sockets, and, of course, the luxurious king-size bed.

*Snugglewood* is only a few yards from the main building with toilets, showers and small kitchen with kettle, microwave, fridge, and all the crockery and cutlery that you’re likely to need.

- King-size bed - bedding hire available
- TV with DVD player
- Washroom with toilet
- Bistro table & chair set
- Covered porch
- BBQ stand
- Picnic bench
- Showers on site
- Peaceful Hampshire countryside

The covered porch provides protection from the Great British weather. If you tire of eating out in one of the many local eateries, you can make use of the BBQ stand and picnic bench for a spot of fine alfresco dining.

# Two Hoots Glamping Camping Pods

*Hobbit's Lodge*, *Sleepy Hollow* and *Appleby Nook* are our standard camping pods. They measure just over 2.3 x 3.5 metres inside (roughly 7½ x 11½ feet), ample room for the sumptuous king-size bed. These are not just wooden tents but cosy little glamping dens, each with a TV/DVD player, electric heating and lighting, carpet, and blinds or curtains.

*Hobbit's Lodge*

The main building houses toilets and showers, and a small kitchen with kettle, microwave, fridge, and all the crockery and cutlery that you're likely to need.

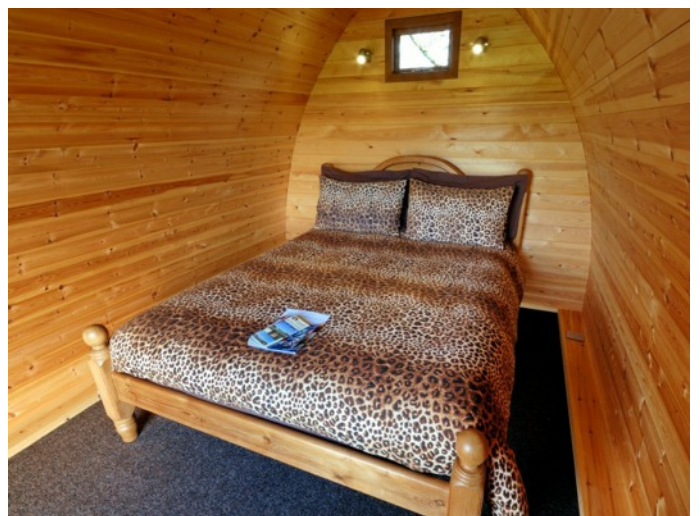

*Appleby Nook*

Outside there's a covered porch with small decking area, a stand for a BBQ, and a picnic bench where you can sit and while away a warm summer's evening, admiring the view across the rolling Hampshire countryside. Or if the weather's typically British, cosy up inside and watch a film!

Like all our units, the pods are fully-insulated for use all year round. The wool insulation is so effective that only a small, low-power electric heater is needed to make the pods cosy and warm. If you find it a bit too stuffy there's a small window for ventilation.

*Sleepy Hollow*

*Inside a standard camping pod*

Bedding hire is an optional extra.
